THE
NOVEMBER
CLASSIC

Organiser's Comments

I can only thank the weather and those S.O.C. members who helped before, during and after the event for allowing us to loose 868 of you on badge classes plus over 250 on R.O.D. courses and get you all back in one piece. So many people spent so many hours on the preparation for the event that it is impossible to thank them all by name but you should all thank Richard Jeans and Dave Witt because their efforts in the few days prior to the event ensured that The Classic actually started let alone ran smoothly.

I must also thank St. John's Ambulance Brigade, The Lyndhurst Police and, especially, the Forestry Commission for their invaluable assistance; Reading O.C., Southampton University O.C., Peter Symonds College and Hythe Scouts for the loan of equipment, the Sweat Shop for donating prize vouchers and, lastly, Nick Bosbury and John Sanz for the mapping, planning and controlling.

Trophies: The following won "SOC November Classic" cups, which can be collected from me at Goring Heath, Esher Common or Shotover Woods

T. INGRAM	(SAX)	M13	J. FARMER	(OD)	W10/11
Q. HARDING	(SAS)	M15	S. THOMAS	(SN)	W13
			J. KANSSEN	(SN)	W15

Lost Property: A number of odd items have been found and these can be collected at the events listed above.

Sweat Shop Prizes: John and Hillary Spicer donated two Sweat Shop vouchers for SOC to present to the most meritorious junior performances and these have been sent to L. BARNES (SN) Winner W17 and J. FARMER (OD) Winner W10.

November Classic 1979: Will be held within 15 Km Lyndhurst on Sunday Nov. 4th. It will be pre-entry, closing date Monday Oct. 15th and late entries will not be accepted.

ULTRASPORTS wish to apologise to their customers for not being at the CLASSIC. The Forestry Commission will allow only one such shop at each event and this was THE SWEAT SHOP on this occasion.

R. Joiner

Planner's Comments

Once again we had a 'Classic' area with a major stream running through it, which could have presented problems had it been in flood. So it was decided to have two starts, one for the longer courses, and one for the shorter courses which did not have to cross the stream.

The area was one of contrasting terrain in which technique and map interpretation of the area had to be varied. I attempted to design the courses to give as much variety

Planner's Comments (Cont'd.)

as possible and with an area such as this it was not difficult.

I sincerely hope you all enjoyed your day at Emery Down and will return to next year's 'Classic'.

Finally, my thanks to all those who assisted me in the production of the map, overprinting and with work in the Forest. I'd like to say a special thank you to Richard Jeans, Tony Simmons and Pete Robson for the vast number of hours they contributed and to John Sanz for his advice and help in the weeks beforehand.

Controller's Comments

Emery Down is the fifth and most demanding area of the New Forest that I have been involved in mapping; surveying natural forest is very time consuming and far more technically difficult than planted forest.

The main problems are in deciding on the suitability of the innumerable small paths and clearings for inclusion on the map; the presence of bracken can make the latter especially much more obvious. I felt that Nick's map was a good attempt at depicting the forest; the map corrections were caused by having to draw the map in too short a time.

The problems that the mapper has are, of course, later faced by the competitor and this is illustrated by some competitors on M21A who had difficulty in finding no. 8 (ML). This I feel was due more to their difficulty in adapting to the problems of navigating in natural forest than to any defect in the map.

On collecting the control in, I re-checked the site from both the rootstock (which also had a control marker) and the large clearing to the South and both were in agreement with the map. There were other small unmapped clearings in the area but the large clearing ended as shown in some trees which being Silver Birch could have been overlooked. There were in addition four point features to the North and West within 50m which provided easy bracken-free attack points.

Winning times were generally close to those recommended by BOF; those for juniors are likely to be increased shortly, generally by about five minutes. Do you feel any of the senior times should also be increased, especially as we provided 'B' courses where they were asked for?
