ORGANISERS COMMENTS

Many thanks to Assistant Organiser Terry Smith, team leaders and all Club members for all their help.

Hopefully you all had a good day and that you enjoyed the courses resulting from the many hours spent in the Forest by Caroline, Ian and our controllers.

Sorry about the delayed results due to a late decision to carry out a manual back-up check.

Male competitors in the Inter Services Champs have been integrated in the M21A results but the ladies have been shown separately on the W35A course as many were probably W21's.

Finally thanks also to the Forestry Commission, St. Johns Ambulance Brigade, Tony Simmons for the exhibition and to the hard working Ecology Research Team who some of you may have seen in the Forest. Their interim report on the event will be available early in 1989 from Lubor Valecky.

WAYFARERS ORGANISER'S COMMENTS

We had 120 competitors on the Long Wayfarers - far more than could reasonably have been expected and hence we ran out of control descriptions before the end. Obviously, many had turned up hoping for a late entry on the Badge event or a run on Colour Coded courses. The Forestry Commission limits on numbers result in neither of these choices being available.

The numbers on the String courses were an even bigger surprise. We had 100 children take part and ran out of String-O maps well before the end. Shall we soon need a Long String-O and and a Short String-O? *Mike Rice*

CONTROLLERS COMMENTS

The beautiful day and the hard work of SOC combined together to give competitors at the 21st November Classic an enjoyable day. In addition to the full complement of entries the extra workload of the Junior Home International must have stretched manpower and resources to the limits.

Caroline and Ian worked very hard to ensure that everyone had the best possible course in spite of the numerous rides and many featureless areas in the centre of the map. This was borne out by the many competitors who said how much they had enjoyed their runs.

Garry's relay courses made the best of an unpromising area constrained by the Start and Finish.

We would also like to comment on the obvious enjoyment of their sport and the good behaviour of the Juniors. They were a credit to their respective countries. Well done, all of you!

Chris and Mike Tween

PLANNERS' COMMENTS

We tried to plan the technical courses in a way that would encourage competitors to take cross-country routes as opposed to using the rides and paths. This reduced the route choice but increased the need for fine navigation. Looking back, this was a good option when considering how the previous day's hunt had turned many of the runnable rides into muddy baths. This policy necessitated the use of two less than ideal control sites - numbers 136 (course B and C) and 104 (course A).

Caution was exercised when choosing streams, ditches and clearings as control features. Most varied in quality depending on the time of year, weather and what part of the map they were on. Two weeks before the event most of the streams were full of water. However, on the day, most resembled marshes or dry ditches. Our choice of control sites was also considerably influenced by the presence of badger setts which prevented us from using many potential features.

Competitors who visited control number 149 may have noticed that the flag was on the wrong side of the thicket - a certain planner must have had her map upside down!!

Thanks to Bill Davidson for the use of his facilities before the event and the excellent job he did in organising this year's Classic; the mappers, Nick Bosberry and Jerry Newcombe who undertook the daunting task of surveying the area; and finally to our patient controllers, Mike and Chris Tween, from whom we both learnt a great deal.

Ian Moran and Caroline Bailey.
