

SOC would like to thank Brian Watkins of Cardinal Computers for his assistance in ranking the results so quickly. The Ideal Times arrived in the post three days after the event!

Entries and Results were processed with the BADGE software from TIME MACHINE (Tel 0703-845787). Wayfarers results were collated with the RAINBOW program. The Results booklet was compiled using WordPerfect 5.1.

of the

26th NOVEMBER CLASSIC

held on

HIGHLAND WATER

on

7th NOVEMBER 1993

ORGANISER'S COMMENTS

I find myself writing these comments on a glorious Autumn morning similar to several days earlier this week, in complete contrast to the rather dull, miserable weather we had yesterday for the event. Obviously, my long term planning failed here!

The need for two car parking areas made the on-the-day organisation a rather tiring operation but parking possibilities on the West side of Highland Water are strictly limited.

I apologise if undue queues built up at the toilets but a shortage of manpower at a late stage meant we had to concentrate on filling one car park at a time and hence the most efficient use was not made of the toilets.

Any large event like this can only run successfully with the help of many people both on the day and beforehand and hence I would like to thank sincerely the team leaders and their teams, all of whom so willingly gave their time and co-operation; we are lucky indeed to have such a group of people in SOC.

I would specifically like to thank the Planner, David Bonser and the Controllers, John Warren (WIM), Mike Tween (WIM) and Assistant Nikki Crawford (WIM) whose tasks were made more difficult by unavoidable circumstances. David lost his assistant planner early on and ended up planning all the courses. John and Nikki stepped in late in the day to take over the bulk of the work from Mike and Cris Tween who, due to indisposition, were not able to spend the necessary time in the field but were there on the day. Their support and co-operation were much appreciated.

Many thanks are also due to the following: the Forestry Commission for their co-operation, particularly in the preparation of the parking areas which a few weeks earlier would have required orienteering skills to find the cars in the head high bracken; the Army for the water bowser; Hythe Scouts for the loan of a large tent and furniture; Matthew Marks (LOK) for his most impressive start clock; the St John Ambulance for their presence and help, I hope after their breakdown emergency that they returned home safely; Sheila and Andrew Beldowski (WSX) for their help with entry processing before the event and result processing on Sunday evening, culminating in draft results being delivered to the Controller on the evening of the event.

Finally, a special thank you to the very young members of our club whose contribution in many areas are extremely important and welcome. In particular to Amy Pennington (age 9) who cycled almost to exhaustion making innumerable journeys on her mountain bike carrying the control cards from the finish to the punch checking tent.

PLANNER'S REPORT

When I originally agreed to plan the 1993 November Classic on Highland Water, I expected to work with a co-planner for the longer Senior courses; as a heavyweight M55, courses longer than around 7 km are a bit outside my usual experience. However, after losing first one co-planner, then a second, then one co-controller, then the

NOVEMBER CLASSIC 1993 - RESULTS

other (How would Oscar Wilde have described this level of carelessness?), I finished up planning all 18 courses! The good news was that John Warren was able to step in to complete the good work started by Mike and Cris Tween the original Controllers.

I set out to give as many competitors as possible the opportunity to experience the very different challenges presented by the 3 main areas of the map, which included at John's suggestion, all but the very shortest courses having at least a brief excursion into the Northern open area. From comments heard and reported it seems that for most people I managed to produce courses that were both challenging and enjoyable. I was pleased to see from the results that most Badge times are within BOF guidelines and I was particularly gratified at the low level of retirement and disqualification, especially amongst the Juniors.

On the day it was fascinating to stand on the edge of the Northern open area and watch competitors emerge from the Inclosure with its complex network of mapped, unmapped and obscured paths, and immediately have to change their technique when faced with a totally different landscape. Yes, I know some of the marshes had turned a bit unpleasant due to the heavy rainfall a few weeks ago but a visit to the New Forest in November cannot be complete without wet feet and the brown stains do eventually wear off.

This was my first experience of the CONDES software which I can recommend to any planners who have not yet met it; in addition to its main functions of drawing the pictorial symbols and keeping track of changes to courses as the planning and controlling proceeds, it enabled me, by the analysis of course and competitor loadings on controls to rationalise the number of controls down to only 82. Incidentally, despite this relatively small number of controls for an event attracting over 1000 competitors, none of the sites (apart from the common last control) received excessive traffic. It also allowed my excellent forest team to put out and collect in the flags and punches in record time.

Apart from echoing the thanks of the Organiser to all those who made the 93 Classic a great success I have to add my own special thanks to John Warren for his tremendous support, encouragement and advice, those 18 courses were very much ours and not just mine.

David Bonser

CONTROLLERS' COMMENTS

The tradition of the November Classic is that it provides an opportunity for Orienteers to experience the unique challenge of New Forest navigation and I believe the Highland Water offered an area that embraced challenge, variety and some stunning Autumn scenery.

Circumstances brought me in as Controller rather unexpectedly but it has been a pleasure to Work with David Bonser, Peter Webb and all of the team who have shown dedication, realism and good humour in presenting an event that proved to be successful on the day and appeared to be appreciated by you the competitors.

John Warren (WIM)

Initially we had agreed to control this year's November Classic but by mid July we knew Cris would have to go into hospital and then at the end of August I twisted a knee while out checking control sites. Nikki Crawford offered her help when Cris dropped out and John Warren, while still controlling the Caddihoe Chase, offered his services when I went out of action. We would like to say a big thank you to John and Nikki for stepping in to the breach.

Mike and Cris Tween(WIM)

PROTECTING CONTROL CARDS

To help results teams, please do NOT use tape or Transpaseal to "protect" bar-codes on your Tyvek control card. The film reflects the light used by the bar-code reader and the number has to be entered manually. However, the reader can cope with reasonably muddy, bloody or otherwise mutilated bar-codes.

NOVEMBER CLASSIC 1993 - RESULTS

CLASSIC JURASSIC DINOSAUR TRAIL

It was fun planning the course; by the way it was 625 m long. It was even more enjoyable to see so many participants; most of them clearly enjoyed themselves. Sorry about the occasional traffic jam at the Finish! If our certificate does not state your time, please copy it from the following alphabetical list. Thank you for coming.

Jean & Lubor Velecky

Name	Age	Time	Name	Age	Time
